A Word to the Wise!

HIGHLY IMPORTANT TO FARMERS

Renner's Chemical Fertilizer!

THE importance of a quick, active and durable Fertilizer, adapted to the soil of this county, is acknowledged by all Farmers. Having satisfied myself, after long study and careful experiment, that P. U. RENNER'S

Chemical Fertilizer

surpasses all others in adaptedness to all kinds of soil, I have purchased the right for Adams county, and am prepared to fill orders for it promptly and on reasonable terms. It is no humbug, but
HAS BEEN SUCCESSFULLY TRIED
by a number of our Farmers, and is admitted by all who have it to be the best in the market, and the cheapest. I am prepared to furnish this Fertilizer in any quantity, and will deliver
In any town or village in the County,
when ordered in not less quantity than a TON. I manufacture it for sale at $50 per ton without bags, or $55 in bags. This fertilizer is composed of the best fertilizing chemicals that can be had. I use no oil of vitriol; it contains no acid, and is therefore I do not use it. Neither do I use lime nor ashes.
THE OBJECT OF THE CHEMICAL FERTILIZER
is to introduce a fertilizer that will last for a series of crops—not only for one. It contains sufficient animal matter to maintain a healthy growth and make it vigorous, while the ammonia forces the growth. I expect to manufacture large quantities during the spring and would therefore ask the farmers and the public generally to give it a trial on all kinds of Grains and Vegetables.
CAUTION.—I hereby give notice that Farm Rights hereafter sold, unless signed by me, are infringements on my Right, and will be prosecuted and dealt with according to law, unless they shall be withdrawn.
All orders will be promptly attended to by addressing

"UNQUESTIONABLY THE BEST SUSTAINED WORK OF THE KIND IN THE WORLD."

HARPER'S MAGAZINE.

Harper's Magazine, apart from the illustrations, contains from fifty to one hundred per cent. more matter than any similar periodical issued in the English language.

CRITICAL NOTICES OF THE PRESS.

"The most popular Monthly in the world—*New York Observer.*
We must refer in terms of eulogy to the high tone and varied excellence of Harper's Magazine—a journal with a monthly circulation of about 200,000 copies—in whose pages are to be found some of the choicest lights and general reading of the day. We speak of this work as an evidence of the culture of the American people; and its popularity it has acquired is merited. Each number contains fully 144 pages of reading-matter, appropriately illustrated with good woodcuts; and it combines in itself the very month-ly and the more philosophical quarterly, blended with the best features of the daily journal. It has great power in the dissemination of love of pure literature."—TUCKER'S *Guide to American Literature, London.*
It is one of the wonders of journalism—the editorial management of Harper's. * * * All the periodicals which the Harpers publish are almost ideally well edited.—*The Nation. N. Y.*
We can account for its success only by the simple fact that it meets precisely the popular taste, furnishing a variety of pleasing and instructive reading for all.—*Zion's Herald, Boston.*

CRITICAL NOTICES OF THE PRESS.

The Model Newspaper of our country. Complete in all the departments of an American Family Paper, HARPER'S WEEKLY has earned for itself a right to the title, "A JOURNAL OF CIVILIZATION."—*New York Evening Post.*
HARPER'S WEEKLY may be considered unrivalled for the best newspaper picture-sheet.—*The Independent.*
The articles upon public questions which appear in HARPER'S WEEKLY from week to week form a remarkable series of brief political essays. They are distinguished by clear and pointed statement, by good common sense, by independence and breadth of view. They are the expression of mature conviction, high principle, and strong feeling, and take their place among the best newspaper writing of the time.—*North American Review, Boston, Mass.*

"A REPOSITORY OF FASHION, PLEASURE, AND INSTRUCTION."

HARPER'S BAZAR.

A supplement containing numerous full-sized patterns of useful articles accompanies the paper every fortnight, and occasionally an elegant Colored Fashion Plate.
Harper's Bazar contains 16 folio pages of the size of Harper's Weekly, printed on superfine calendered paper, and is published weekly.

CRITICAL NOTICES OF THE PRESS.

Harper's Bazar contains besides pictures, patterns, etc., a variety of matter of especial use and interest to the family; articles of health, dress, and housekeeping in all its branches; its editorial matter is by the ablest writers; it is intended to be entertaining, correct and instruct; and it has, besides, good stories and literary matter of merit. It is not surprising that the Journal, with such features, has achieved in a short time an immense success; for sometime after its issue, Bazar obtained a good paying circulation; it publishers have filled the demand. The young lady in the family is the member for whom Bazar is made a subscriber for life.—*From the Evening Post.*
The Bazar is excellent. Like all the periodicals which the Harpers publish, it is almost ideally well edited, and the class of readers for whom it is intended—the women and daughters of the average families—can not but profit by its good sense and good taste, which, we have no doubt, are to-day making very many homes happier than they may have been before. The women began taking lessons in personal and household art by wise management from this good-natured mentor.—*The Nation.*
It has the merit of being sensible, of conveying instruction, of giving excellent patterns in every department, and of being well stocked with good reading-matter.—*Watchman and Reflector.*

THE official vote of Wisconsin gives Gov. FAIRCHILD 8,181 majority—nearly double that of two years ago.

ROBERT M. DOUGLAS, son of the late Senator Douglass, has been promoted to the position of Private Secretary of the President.

ONE million two hundred thousand dollars have been secured in aid of the proposed International Exhibition at Washington, and the enterprise is considered to be assured of success. President GRANT subscribed $5,000.

THE Washington *Star* says that information was received at the State Department Tuesday to the effect that Minister Motley had reopened the negotiations with the British Government for the settlement of the Alabama claims.

GOV. GEARY on Wednesday signed the warrant for the execution of Dr. Schoeppe, of Carlisle, convicted of the murder of Miss Stennecke by administering poison. The Attorney General, to whom had been referred the papers and arguments for a pardon, reported adversely. The execution will take place on the 22d of December.

THE completion of the Suez Canal has turned attention to the long projected idea of connecting the Atlantic and Pacific by a ship Canal across the Isthmus of Darien. It is stated that the Secretary of the Navy has ordered soundings, reconnoissances and maps to be made of the approaches to the Isthmus.

THE attention of the Government has been called to the condition of Indian affairs in Montana, as a general outbreak among the tribes in the Territory is considered imminent. It is proposed to invest the Territorial authorities with power to try Indian offenders under formal indictment, and if found guilty to deal with them as in the case of white citizens.

THE movement in favor of an early return to specie payments is evidently gathering strength, and the opinion is expressed in the highest financial circles that the project will be achieved before the close of another year. It is said General GRANT and Secretary BOUTWELL are both in favor of an early resumption, and will probably urge it on Congress. General GARFIELD and a number of other noted Western members are also announced as in favor of a speedy resumption. It is thought Congress will early in the session take some decided action on the subject.

JOHN JOHNSTON, Senator elect from Virginia, has written a letter in which he unqualifiedly endorses the 15th Amendment, and opposes all schemes tending to impair the national securities or looking to repudiation. What a contrast to the other Johnson, of Tennessee! The former supported the Rebellion, but like an honest man accepts the situation, and insists that all good men should abide the verdict of the nation. The latter started out a blatant Union man, but has thrown himself into the hands of the enemies of the Republic, declaims ferociously against the tyranny of the Government, and preaches repudiation and national dishonor. The one is a statesman—the other a demagogue.

THE prospects of the insurgents in Cuba seem to be improving. The burning of sugar plantations, desertions of mulattoes from the Government ranks, the murmurs of the Havana merchants, and a battle won by the Rebels near Remedios, have induced the commander of the Spanish forces to abandon for the present all active operations against the insurgents. This does not look much like suppressing the insurrection; and cannot fail to stimulate the favorable disposition of the United States Government towards the Cubans. The only question is how we can help them honorably, and efficiently; for that our Government will sooner or later interfere, is now scarcely to be doubted.

THE difficulties connected with the collection of the Internal Revenue tax, and the numerous frauds brought to the attention of the Government, will result in additional legislation and probably an essential change in the mode of collecting. Mr. Myers, member of Congress from one of the Philadelphia districts, has prepared a bill which he intends to urge, providing that the tax shall be levied on the capacity of the stills, all of which shall be placed under the control of Revenue Inspectors, who shall carry the keys of the building, except when the proprietors require them for use. This system has been thorough tested in Scotland, and found to operate beneficially to the Government and the distillers. The practical effect will be to tax a still to the amount of its capacity during the time it is worked. Thus if a still is capable of producing one hundred barrels a day, and is run for that length of time, it will be taxed to that amount.

LARGE as is the indebtedness of the United States, growing out of the War for the suppression of the Rebellion, it is not near as heavy a load as some other nations have to carry, as will be seen by the annexed table:

	Population.	Debt.	A. pr hd. of pop.
Austria	37,931,000	$1,459,858,845	$39 45
Belgium	4,964,000	141,484,043	28 50
France	38,192 00 0	2,104 6 0,000	66 15
G. Britain	29,250,000	4,014,214,743	134 89
Holland	3,634,000	392 140,382	107 97
Italy	21,483,000	1,358,081,622	60 35
Portugal	4,550,000	198,534,320	43 57
Prussia	19,304 000	270,615,320	10 91
Spain	16,257,000	$19,837,366	50 32
United States	35,000,000	2,500,000,000	71 43

Thus while England and Holland are carrying a debt averaging, in the one case $134.89, and in the other $107.-97, to each inhabitant, the average in the United States is but $71 43. It must further be taken in view that while the population and resources of these European nations are comparatively fixed, the United States, both in population and resources, is making progress unparalled in the history of nations—every day increasing the aggregate of wealth and material resources, and consequent ability to meet the debt with decreasing burden to each inhabitant. During the past year we have paid over one hundred millions of the national debt, while the European States are necessarily content with meeting the annual interest—some of them hardly doing that.—We have been giving the old nations of the world some interesting lessons. The next will be the ability and willingness of a free people to pay every dollar of the national debt.

HORRORS are on the increase, and every day seems to produce a new one. The latest is that of the butchery of a whole family near Pleasant Grove, in Huntingdon county, Pa., on the 17th inst. John Pergthal, his wife, and son aged about 12 years, whilst eating their evening meal, were fired upon, by two Germans, named Badenberg and Bohrer. Mr. Pergthal and the son, shot through the head, were instantly killed. Mrs. Pergthal was not fatally wounded, but the fiends sprang for a hatchet, and with this dispatched the wounded woman. They then leisurely ransacked the house, and after securing all the money of their victims, amounting to several thousand dollars, placed the bodies side by side, covered them with clothing and bedding, and, with a match set fire to the whole, and then fled. The fire made but little headway, but the smoke attracted the attention of some persons passing by, who entered the house and discovered the true condition of affairs. The fiends in the meantime had taken the night train west, but a telegram reached Altoona in time to secure their arrest on the arrival of the train at that place.—A part of the money was found on their persons—the balance is supposed to be concealed in the vicinity of the murder. Bohrer was convicted about three years ago of larceny and served his term in the penitentiary. Badenberg has made a partial confession; but without this the evidence is sufficiently strong to insure the conviction of both the demons.

THE Spanish Government, it appears, had a fleet of thirty gunboats for some time past in New York harbor. On Tuesday, District Attorney Pierrepoint had libels prepared against the gun-boats, and, as a matter of course, all Gotham was in a uproar, and exciting rumors of various kinds were circulated, including one that Spain had threatened the United States with war if the boats were detained. On the other hand, it is stated, that the proceedings of the District Attorney were the result of a complaint made by the Minister from Peru to the effect that he believed these vessels were intended to be used by Spain against his country; and it is also said the difficulty will only be temporary, as the gun-boats will be released as soon as the Spanish Government, through its Minister, files bonds that they will not be used against a nation which is at peace with the United States. A few days will doubtless suffice to show the drift of the matter.

THE world certainly moves. A sensational newspaper having started a report that the Secretary of the Portuguese Minister at Washington had formed an illicit connection with an octoroon, the Secretary, M. Paul Gerard, has taken exception to the report, and, to show that his engegement is entirely satisfactory to himself, has sued the publishers, claiming $50,000 damages.

THE Chambersburg *Public Opinion* is down on public lecturers, most of whom it thinks "are actually unfit to write, much less deliver, a peroration for the most illiterate college-boy."—Friend Foltz must have either fallen into the hands of very bad lecturers, or some of them must have been treading heavily on his toes.

ALABAMA has ratified the XVth amendment. The vote in the Senate was unanimous; in the House there were but 19 votes cast against it. Thus, while Northern Copperheads doggedly resist Manhood Suffrage, one by one the Rebel States fall into line and insure the triumph of true Democratic principles.

HON. BENJAMIN FITZPATRICK, of Alabama, died at his residence, in Elmira county, in that State, on Sunday. In 1841 he was elected Governor of Alabama, and was subsequently sent to the U. S. Senate, retiring in 1861 with Jeff. Davis and other traitors to aid the Rebellion.

GOLD closed yesterday at 134½, with a tendency down the scale.

THE State of Delaware clings as doggedly to its pastime of "flogging" men and women as it does to Democracy and Slavery. The logic of events and the humanizing influences of Christian civilization are alike powerless with her law-makers. On Saturday last, at New Castle, her people enjoyed the pleasure of seeing five men convicted of petty misdemeanors, publicly flogged in the jail yard. Edward Smith, colored, received 30 lashes and the lure back until the blood ran, for assault on a child. Andrew Chambers, white, got 20 lashes for stealing money; George W. Jackson, colored, 20 lashes for stealing rags; James Gordon, colored, 20 lashes for stealing a pair of shoes; and Josep h Darms 20 lashes for stealing a cow—blood being drawn in each case. The prisoners were then returned to jail to serve out various terms of imprisonment. If Delaware must regale its people with barbarous practices, would it not be well to substitute Spanish bull-fights for human flogging? Or probably the roughs of New York City could be induced, for a reasonable consideration, to treat them to an occasional dog-fight. Either would be an improvement.

THE great wind storm of Thursday and Friday was very extended and destructive. From the Atlantic coast to far out on the Western plains the terrible tornado swept the country, varying in violence as different points, but in many localities literally sweeping bare the face of the earth. The damage to property is immense, but with the exceptions of the disasters on the Western lakes, no loss of life is yet reported.

THE SUEZ CANAL.

The formal opening of this great triumph of civil engeneering took place on Saturday, in the presence of the Emperor of Austria, the Empress Eugenia of France, and other European dignitaries, and was marked with all the pageantry and display which monarchy possesses the ability to concede. The ceremonies in which, from policy, France, it chooses to take an interest. The canal is to connect the Mediterranean Sea with the Red Sea, and to furnish a highway of water communication to the East. With all its belongings, however, it is much more a project of interest to the commercial than the political world. Whether it can be maintained in practical efficiency as a highway between the Western and Eastern Hemispheres, and whether, if so maintained, it will largely revolutionize the course of trade, are questions yet to be determined by experience. We know only, at present, that, after a struggle that has had in it many adventurous and almost marvellous incidents, M. Lesseps has succeeded in connecting the Mediterranean with the Red Sea.

The idea of this connection is as old as history itself. Away back in the time of the Pharaohs, fourteen hundred years before the commencement of the Christian era, a canal was commenced connecting the eastern branch of the Nile with the Lake Timsah, and thence with the Red Sea. The great works of the world went on slowly, and it was not until a thousand years later that this canal was completed. It served partly the purposes of irrigation of the intermediate country and for the transport of the small vessels that then carried the commerce of the world. For a thousand years, or up to the eighth century of the Christian era, it existed, and was used until a Caliph of Bagdad found it in his way, and filled it up, for the purpose of cutting off the supplies of a rebellious subject. The width of the canal is given by the ancient authorities as one hundred yards, and four days was the usual time occupied in a passage through it. Some of the remains of this old Pharonic canal are still in a state of preservation.

The idea of replacing this canal by one of more modern construction, of greater capacity, and more direct in its construction, has been discussed from time to time, but it was not until 1831 that M. Ferdinand de Lesseps took the matter into serious contemplation, and, after almost forty years of constant labor, of continuous struggle, and of devotion to an idea that has been almost superhuman in its concentrated energy, he now sees it completed. His is one of those natures that grow determined under opposition and difficulties, and that triumphs most brilliantly when most obstructed. His plans have been delayed, and at times seemed on the verge of being defeated, by the weakness of the Turkish and the jealousy of the English Governments. The British people feared that the opening of a highway free to all the world would interfere with their position in Egypt and endanger the security of their East India possessions. Through all these obstacles, as well as against the even more difficult one of obtaining means for the construction of a work of such immense cost, M. Lesseps fought and won his way.

The width of the Isthmus of Suez is seventy miles in a direct line. The length of the canal, from Port Said to a point a little southeast of Suez, is exactly one hundred miles, sixty of which pass through the lakes Menzaleh, Ballah, Timsah and the Bliter Lakes. Embankments were constructed only upon Lakes Menzaleh and Ballah, and not upon the last two named. The width of the canal at the water line varies from 190.2 to 492 feet. The width at the water line of about four-fifths of the entire canal is 328 feet. Between the 40th and 47th miles, where the excavations were very difficut, the canal is only 190 feet wide. The width of the channel bed is nowhere less than 72 feet; near Port Said, it is from 121 to 180 feet, and near Suez from 265 to 311 feet. The depth of the canal is not less than 26.2 feet, but between the Bitter Lakes and Suez the depth is from 26.5 to 32.8 feet. The canal commences at Port Said, on the Mediterranean, which city has derived its name from Said Pacha. It was founded by the Canal Company in 1859, on a narrow uninhabited strip of sand, which was enlarged by sand from the harbor dredgings. Port Said lies not far from Damietta, a town near the mouth of the eastern arm of the Nile. In 1859 there were only a few tents for the engineers, and a few huts which were built on piles where the city now stands. Provisions and water were, at that time, brought on camels from Damietta, or by vessel, at a distance of thrith five miles. Port Said has now twelve thousand inhabitants, and its trade is increasing rapidly. In 1868 not less than two hundred and sixty-six steamers, chiefly belonging to French, Russian, Austrian and Egyptain companies, arrived at Port Said. The inner harbor of Port Said, which is called the "*Grand Bassin du Port*," is large enough for four hundred first-class merchantmen. Besides the large basin there are two smaller ones; one of these is called the Basin of Commerce, the other the Basin of the Arsenal. Any enlargement of the inner port, if such should be necessary, will be into the Lake Menzaleh, consequently toward the west. The outer port was formed by the construction of two moles, or breakwaters, which converge toward each other as they run out into the sea. The length of the western mole is 6,200 feet; that of the eastern mole, which is yet to be extended, 6,333 feet. These sea walls enclose an area of about 550 acres, in the form of a triangle. Their height is 36 feet, their width at the base 78 feet, and at the summit 16 feet. As stone was not to be obtained in the surrounding country, these moles have been constructed of concrete blocks, which weigh 20 tons or 40,000 pounds, and whose size is 56 cubic feet. Their value is $250 gold each.

What effect the completion of this canal will have upon the commerce of the world remains, as we have said, to be demonstrated. Into that demonstration will enter not only the practical efficiency of the canal as a means for the transit of large vessels from the Mediterranean to the Red Sea, but, also the other question of what will be the tariff or rate of toll upon vessels using the canal. The distance from our Atlantic cities *via* the Pacific Railroad to San Francisco, and thence by ocean steamers to Canton, is ten thousand five hundred miles. From New York to Canton *via* Panama is eleven thousand five hundred miles, and *via* the Suez Canal precisely the same distance.

From a careful compilation of official reports and seasonable estimates, it appears that the total population of the globe is at present 1,288,000,000 souls, of which 360,-000,000 are of the Caucasian race; 553,000,-000 of the Mongul race; 190,000,000 of the Ethiopian race; 176,000,000 of the Malay race; 1,000,000 of the Indo-American race. There are 8,642 languages spoken, and 1,000 different religions. The yearly mortality of the globe is 33,333,333, person. This is at the rate of 91,554 per day, 3,730 per hour, 62 per minute. So each pulsation of the heart marks the decease of some human creature. The average of human life is 33 years. Married men live longer than single ones. One eighth of the population is military. There are 336,000,000 Christians, 5,000,000 Israelites, 90,000,000 Asiatic Idolatrists, 190,000,000 Mohammedans, and 200,000,000 Pagans. In the Christian churches 170,000,000 profess the Roman Catholic, 75,000,000 profess the Greek faith, and 90,000,000 the Protestant.

NEWS OF NEIGHBORING COUNTIES

FREDERICK.—It is proposed to organize a new county out of Frederick, Carroll and Montgomery counties.

FRANKLIN.—The hotel of A. W. Holland, Fayetteville, was entered on the night of the 17th inst., and a quantity of meat carried off.—R. B. Gough, of Fayetteville, last week shot a bear in the mountain which weighed 150 pounds.—Barnet Early, of Chambersburg, has been appointed Chief Clerk in the office of Assistant Treasurer of the U. States at Philadelphia.—Another attempt was made to fire the store of John Ray, in Mercersburg, on Sunday night; it was formerly occupied by John Patton.

WASHINGTON.—The Hagerstown *Herald* records the death of Mrs. Rosanna Stake, aged 103 years and 8 months. She was the mother of 10 children, the eldest living being 74 years old. She leaves surviving descendants to the number of 100.

YORK.—M. S. Croll has been appointed Postmaster at Newberrytown, vice John Hays removed, and R. K. Kilgore at Union, vice F. Ehrhart removed.—Frederick Sakemiller has purchased the farm of John Evans, Esq., in York township, 145 acres, for $23,200.—The property of Mrs. Lydia Diller, deceased, on Carlisle street, Hanover, has been purchased by Jesse Kohler for $5,022.—Jeremiah Kohler has purchased the Flickinger farm, near Hanover, for $12,000.—On Tuesday night Hanover was visited by burglars in quest of silver ware. The residence of Jacob Writ, deceased, was entered and about $65 worth of silver were taken. Judge Young lost about $50 worth. The residence of Mrs. Lydia Diller was also entered, but the thieves got no further than the kitchen.

THE Boylston National Bank of Boston, was robbed on Sunday last of bonds a mounting to nearly half a million of dollars, which had been deposited in its vault for safe-keeping. The robbery was decidedly ingenious. A man named Judson, about four weeks ago, rented a room adjoining the Bank, ostensibly for the purpose of puting up bitters. It seems, however, that the real object was to dig through the wall, which was 18 inches thick. The brick dug out of the wall were put in boxes and labelled "medicine," to ward off suspicion. So successfully was the operation affected that no discovery took place until the opening of the Bank on Monday morning. Thus far the burglars have managed to keep out of the hands of the police.

MORROW AND DOUGHERTY, the two assassins hired by the Whiskey Ring to murder Revenue Officer Brooks in Philadelphia some two months since, on Saturday were brought into Court, and the attempts of their employers having failed to release them, they received the final sentence. They were condemned to pay a fine of one thousand dollars each and be imprisoned for seven years. The result of the trial is generally accepted as a triumph of justice over the powerful and corrupt combination known as the Whiskey Ring.

The right man in the right place—A husband at home is the evening.

PHILADELPHIA, Nov. 22, 1869.

DEAR SIR:—You say that some of your neighbors are inquiring how we can afford to sell out our stock at such prices as we advertise. They say, you tell me, "Would it not make them bankrupt to sell out four hundred thousand dollars' worth of clothing, and make no profit on it?" I am glad the people take so much interest in us and our "Sale," and I cheerfully reply to their query. In these times, most men consider that they *are* "making money" if they manage to hold their own. That is not our case, however. Even by this Sale, not directly, but indirectly, we expect to make something. In the first place, our sales thus far this season *have been so great* that though we have *undersold* all our competitors, we have made money enough to give us a handsome margin, even though we should make nothing by the sale, either directly or indirectly. But if we repeat the experience of last Winter, we will find this Sale the means of attracting and attaching to our house many new customers, who, forever after give us their regular trade. There's profit in that. Then, again, it puts us in possession of a large amount of ready cash, which gives us infinite advantages in our business, and on which we can well afford to pay a discount rather than wait for it to come in more slowly in the regular way. Moreover, it gives us a good start for next season, leaving us unincumbered with old stock. So our friends need not fear that we will do ourselves any harm; and they may be sure that we will do them good if they will give us a chance at this present time.

A WATCH, pair of Blankets, Quilt or Shawl for One Dollar appears almost impossible, but such may be had and hundreds of other useful articles by patronizing PARKER & CO'S, "ONE DOLLAR SALE."

Their system of doing business has been examined by the authorities and a DECISION rendered from the Internal Revenue department at Washington dated Nov. 4, 1868, declaring their business perfectly fair and legitimate and entirely different from the numerous gift enterprises. Of course all do not get watches, blankets, &c., for One Dollar, but in every large Club, one of these articles are sold for One Dollar as an extra inducement, and some member of the club has the chance of obtaining it. A New feature introduced by the enterprising firm, is to pay their agents in either cash or merchandise and to pay the express charges. No better opportunity can be offered to either ladies or Gentlemen, having leisure time, than to form clubs for this firm.

Read their advertisement in another column, and send for catalogue. [Oct. 22-1ym]

THE UNIVERSAL CRY, "What shall I buy for Holiday Presents?"

The Star and Sentinel.

Gettysburg, Friday, Nov. 26, 1869.

LARGE BEET.—Mr. W. W. Witherow, of Cumberland township, sends us a Red Beet measuring 33 inches in circumfrence and weighing 6 pounds.

LOST OR STOLEN.—There was lost, or stolen, in Gettysburg on Thanksgiving day, a leather pocket-book containing between $30 and $35, of which $3.75 were in silver. The pocket-book was tied and pinned. It contained the summer carrings of an aged woman. The persons having it in possession on returning it promptly to this office, will receive a suitable reward.

READINGS.—Prof. Kidd gave a series of Readings in Agricultural Hall on Tuesday night, for the benefit of St. James Church Sabbath School, there being a large attendance. Prof. K. has considerable reputation as an Elocutionist, and his Readings on Tuesday night, more especially the humorous pieces, were warmly applauded.

DEDICATION.—The Odd Fellows Hall in York Springs has been completed, and arrangements are being made to have the lodge room proper dedicated under the forms prescribed by the Order. The ceremony will take place on the 7th of Dec. There will be a procession of members of York Springs Lodge and visiting Lodges. The Grand Lodge officers have been invited to be present. We presume particulars will in due time be announced by the Committee of Arrangements.

SALES.—Mr. Jesse Eppleman, of Union township, has sold his farm, lying near Littlestown, for the sum of $15, 000. Mr. George Bashore, purchaser.

Louis Strouse has purchased the property of widow Gallagher, on North Strat on street.

Augustus Crouse bought, on the 13th inst., at Sheriff's sale, the property of Lewis P. Weaver, in Union township, at $290. Mr. Jesse Appleman, of Union township, recently sold his farm of 156 acres, to Mr. George Basehore for $150 per acre.

Jacob Lott has sold his farm of 132 acres, Mountpleasant township, to Jess Worley of Germany township, for $4,620 cash.

S. S. ENTERTAINMENT.—The Sabbath Schools of St. James Lutheran Church will give an Entertainment in Agricultural Hall, on Friday evening, Dec. 3, the programme to consist of singing by the Schools, with a series of varied exercises, which cannot fail to be very interesting. St. James S. School is the largest in the county, the Infant Department alone numbering over 200, and is efficiently officered. Both Departments will unite in the exercises, and from the success of this School in previous exhibitions we may expect an unusually interesting entertainment. The proceeds of sale of tickets will be for the use of the Schools. Let there be a full house. Tickets 25 cents; children under 12 years 15 cents—to be had at the stores of A. D. Buehler and M. Spangler, and at the door.

TEACHERS' INSTITUTE.—In addition to the speakers previously announced for the annual session of the Teachers' Institute commencing Dec. 6th, we learn that Prof. J. V. Montgomery, of Millersville, and Prof. A. N. Raub, of Lock Haven, will be present the entire week. Both these gentlemen are experienced practical educators and able lecturers. Prof. Montgomery will lecture upon Penmanship, Color, Drawing and Geography. Prof. Raub will give instruction in Orthography, Grammar and Arithmetic, and will lecture on Wednesday evening. Col. McFarland, of Harrisburg, will be present on Thursday, and will address the Directors on the subjects of School Buildings and Furniture. Mr. Wert, our energetic County Superintendent, is doing his best to make the sessions of the Institute attractive and profitable.

CONCERT.—The Concert of Christ Church Sabbath School, in Agricultural Hall, on Thanksgiving night, was a marked success, the large Hall being densely crowded, many failing to secure seats.—The programme occupied very near two hours, consisting mainly of vocal and instrumental music, much of which was of rare merit, the School being assisted by some of our best amateur musicians. The platform had been handsomely decorated with evergreen, festoons &c., while an arrangement of gas jets suspended in front of the platform displayed the words "God is Love," with three large stars, and underneath "Feed my Lambs." Although the exercises were somewhat marred by defective light on the stage, the supply of gas being inadequate, they commanded close attention and manifest approval to the end.

On Friday night the Concert was repeated, with a partial change of programme, to accommodate those who were unable to secure seats on Thursday night, and others who desired a repetition. The light was much improved on the second evening, and everything passed off satisfactorily.

The beautiful gas jets, which attracted much attention, belong to the Lutheran Sabbath School of Wheeling, West Virginia, (Rev. S. B. Barnitz, Pastor,) having been borrowed for the occasion.

SEND IN LOCAL NEWS.—The Lancaster *Inquirer* uges its readers throughout the county to furnish all the interesting items of local news that transpire in their respective neighborhoods, and proposes to furnished stamped envelopes and paper to any lady or gentleman who will undertake to do it. There is nothing that adds so much to the value of a county paper as a liberal supply of home news. Nothing is needed to accomplish this but for some person of ordinary intelligence in each neighborhood to send for publication whatever events of local interest may transpire.—Many events may happen of local interest that some persons think not of sufficient consequence to send for publication; but it is a pretty good rule to lay down that whatever excites interest among the people of the neighborhood is a matter of sufficient interest for publication in the county paper. Whatever happens that people are sure to talk about when they meet, will interest them if they see it in the paper. An unusually large crop, the sale of real estate, accidents of any character either to man or animals, an unusually large day's work or the thousand and one things that form the staple of conversation throughout the country, will contribute to make the column of a county paper interesting and attractive.

We cheerfully make the same offer to any of our readers who may be willing to furnish us with items of general interest transpiring in their neighborhood. Their publication, besides making the local department of our paper more interesting, will benefit the neighborhood. Further, if you don't care about writing out the notices, simply send us the facts and we will fix up the locals. Send in your items, friends.

THE WAY TO DO IT.—During the past week a number of our subscibers called to pay their subscriptions, for which they have our thanks. As a general rule these payments were made with a hearty good will and words of encouragement which are even more grateful than the money. We have in addition credited a number of *advance* payments. Mr. H. L. of Greenridge, not only sends the present year's subscription but enough to pay in advance to April, 1871. Here's a brief note, squarely to the point, from the West:

NORTH AURORA, ILLINOIS, Nov. 18, 1869.

GENTLEMEN:—Having noticed in the last issue of the "Star and Sentinel," a request for delinquent subscribers to pay up, enclosed find $5, which pays arrearages and in advance. Continue to send the good old paper; I can't do without it. From an old subscriber, a devoted reader of the "Star and Sentinel," and a staunch old Republican. A. F. L.

Our friend A. F. L. will do no discredit to the staunch Republicanism of the State which gave Lincoln to the Republic. Now, if any of our other "staunch old Republicans" want to know "the way to do it," let them follow in the wake of A. F. L.

IN BANKRUPTCY.—Dr. Riley S. Hamilton, of New York, has petitioned the District Court of the United States for the Southern District of New York, for a decree of Bankruptcy, and notice of the fact has been served on his creditors.—Dr. Hamilton was one of the original lessees of the Gettysburg Katalysine Spring, and was largely concerned in the Real Estate purchases in the neighborhood of the Spring. We have before us a copy of the official notice of the U. S. Marshall, giving the names of his creditors and the amount of indebtedness to each. In the list appear the following, residents of Gettysburg and vicinity:

John L. Burns,	$ 800 00
David Ziegler,	500 00
Lewis E. Kummerant,	400 00
Fahnestock & Eichelbeger,	6,650 00
David Ireland,	5,000 00
Mr. Geiselman,	3,800 00
John Slentz,	450 00
George Stremmer,	12,500 00
C. H. Dustman,	900 00
J. A. Grimes,	3,500 00
Edward McPherson,	4,000 00
C. J. Tyson,	6,065 00
R. G. McCreary,	1,918 00
Get. Springs Hotel Co.,	1,800 00
J. M. Anderson,	256 28
Daniel Keefer,	220 00
Get. Springs R. R. Co.,	4,852 86
George Arnold,	3,167 38
Powers & Atkinson,	215 71
Geo. M Howell,	1,500 00

Most of this indebtedness is for unpaid purchase money of real estate conveyed to Hamilton and others, and is secured by mortgage, so that the Gettysburg creditors will in the end lose but little.

CARE OF THE FEET.—Concerning this subject the *Scientific American* very truely says: "Many are careless in the keeping of the feet. If they wash them once a week they think they are doing well. They do not consider that the largest pores of the system are located in the bottom of the foot, and the most offensive matter is discharged through the pores. They wear stockings from the begining to the end of week without change, which become completely saturated with offensive matter.

"Ill health is generated by such treatment of the feet. The pores are not repellants but absorbants, and the fetid matter, to a greater or less extent, is taken back into the system. The feet should be washed every day with pure water only, as well as the armpits, from which an offensive odor is also emitted, unless daily ablution is practiced. Stockings should not be worn more than a day or two at a time. They may be worn one day, and then aired and sunned and worn another day, if necessary."

☞The Frederick Md. *Republican* has a lengthy article on the early history of Mechanicstown, in which we find the following:

"Harman & Fundenburg kept store here about the year 1823, and transacted an extensive business. One of their clerks was Mr. Elias Hart, who afterwards removed to Frederick, where he became a prominent Dry Goods merchant. Another, Mr. Joel B. Danner, removed to Gettysburg, where he now resides, and where he has been successful as a Grocery and Hardware merchant. Hon. Joel B. Danner was once chosen by the people of Adams and York counties, Penn. to represent that District in the Congress of the United States.

THANKSGIVING DAY.—Thursday of last week was generally observed all over the country. In Gettysburg all places of business were closed. In accordance with previous arrangements, services appropriate to the day were held in the United Presbyterian Church, Rev. Mr. Cheston, of the Methodist Episcopal church, and Rev. Mr. Hillis, of the Presbyterian, delivering interesting addresses. Rev. Mr. Ferguson, United Presbyterian, and Rev. Mr. Breidenbaugh, Lutheran, conducted the devotional exercises.

CONSOLING.—It is certainly a great consolation in these hard times, when every one complains of the scarcity of money, to know there is *one man who appreciates* the present condition of affairs, and who is willing, so far as his limited means will allow, to help *every one* who will take our advice, (which is given through kindness to our readers,) out of their troubles. He does this by offering his stock of Dry Goods, Notions and Queensware, at greatly reduced prices—*so low* that he scarcely has a profit sufficient to pay expenses. His store is on the North-west corner of the square. His name is FRANK D. DUPHORN.

SAVE THE GAS.—An Agent is now canvassing Gettysburg and Adams county with an entirely new Gas Burner. This burner saves at least 50 per cent. of gas—is ornamental, non-corrosive, and makes a much better light than the old fashioned ones. We notice a very poor light in some of our "street lamps," as also in the Court-house, which could be much improved by substituting the new burners. Persons interested should see to it immediately. The Agent is stopping at the "Globe Inn," in Gettysburg. tf

BIBLE SOCIETY MEETINGS.

FAIRFIELD.

A meeting of the friends of the Bible cause was held on Friday evening, Nov. 12th, in the Evangelical Lutheran Church of Fairfield, to consider the propriety of organizing a Bible Society, as an auxiliary to the Pennsylvania Bible Society. Addresses were delivered by M. L. Stoever, L. L. D., of Gettysburg, and Rev. J. H. Torrence, Secretary of the Pennsylvania Bible Society. After the addresses it was determined to establish such a Society, to be called the "Bible Society of Fairfield and vicinity." In this cause all the members of the Evangelical Churches take a deep interest, and the presence of many of the members at the meeting, and their interest in the proceedings, seemed to indicate that they were going to make the Society a great success. The following persons were chosen officers of the Society:

President—Barnabas Riley, Lutheran Church.

Vice Presidents—Levi Heiner, Methodist Episcopal; J. S. Witherow, Presbyterian; D. R. Musselman, Lutheran, and Peter Kready, Reformed.

Secretary—Charles J. Sefton, Methodist.

Treasurer and Depositary—A. C. Musselman, Lutheran.

Managers—G. W. Wortz, Mrs. A. E. Landis, Lutheran; Israel Fraim, Mrs. E. Swope, Methodist E.; John B. Paxton, Miss Maggie McGinley, Presbyterian; Joseph Gelbach, Miss Kate Kready, Reformed.

NEW OXFORD.

The meeting announced to take some preliminary action in regard to the establishment of a Bible Society, by the friends of the Bible cause, was held in the basement of the Lutheran Church in New Oxford, Nov. 13th, and was largely attended, notwithstanding the inclemency of the weather. The meeting was opened by the reading and singing of a hymn suitable for the occasion. Prayer was offered by the Rev. Dr. Hay. The Rev. J. A. Dixon then stated the object of the, meeting, after which addresses were made by Rev. Dr. Hay of Gettysburg, and the Rev. J. H. Torrence, Corresponding Secretary of the Penn'a. Bible Society. Mr. John R. Hersh was then chosen Chairman, and J. S. Gilt Secretary of the meeting.

A motion was made and seconded that this Society shall be called the "Bible Society of New Oxford and vicinity," the object of which shall be to promote the circulation of the Holy Scriptures, without note or comment.

A Constitution was adopted, and Rev. J. A. Dixon, David Hoke and Frank Peters were appointed a committee to nominate officers, who upon consultation named the following persons, viz:

President—John R. Hersh.

Vice-President—Rev. W. F. P. Davis.

Secretary—Dr. J. W. Hendrix.

Treasurer—John Barnitz.

A Depositary to be chosen at the next meeting.

It was further resolved that the President, Secretary and Treasurer constitute a committee to district the town and solicit subscriptions.

It was *Resolved*, That the Secretary be instructed to forward a copy of the proceedings to the papers in Gettysburg for publication.

After singing of the Doxology, the meeting adjourned, to meet again at the call of the President, or any of the Managers shall have the power to call a meeting of the Society.

EAST BERLIN.

It was resolved to organize a Society, to be called the "Bible Society of East Berlin and vicinity." A Constitution was adopted, and the following officers were elected:

President—George King.

Vice Presidents—H. B. Raber, M. McSherry and J. Q. Schwartz.

Secretary—J. C. Hildebrand.

BIRDSOWER'S SEGARS have become noted for their high flavor, and every body who knows anything about good Tobacco has got in the habit of going direct to his establishment in the northeast corner of the diamond—fully assured that they can get just what they want, the very best *Segars*, made of prime tobacco, highly-flavored, and what is better still sold at prices *that can't be beat up or out of the city*. Strangers can't mistake the place. "*Punch*" always stands at the door, good humoredly inviting the passer-by to enter and enjoy the good things to be found there—Segars, Smoking and Chewing Tobacco, of the best brand, Merchanting, Pipes, &c.

NOTICE.—Orders for the Howe Sewing Machines should be directed to Gettysburg, instead of Granite Hill, as heretofore. tf

☞In another column of this issue will be found a letter received by us from our friend, Mr. Wanamaker, of the celebrated clothing firm of Wanamaker & Brown. We take the liberty of publishing it, and very gladly speak the word he desires us to in reference to its great sale. "*It is an ill wind that blows no one any good*," they say, and here is another illustration of the old proverb. If hard times have made business dull the money they have left in turn, made us this opportunity of getting a good suit of clothes, at least, at such a price as we can command. We know many a good fellow who has been putting himself off without an overcoat this winter, or a much needed pair of pants, or vest, because he thought he couldn't afford it. All such will now go right for Wanamaker's, and lay in a stock for the next few years. We infer that the sale is intended to be sharp and quick, but the chance is one of those that men "jump at," and so we need not say a word to our readers about being in good time. Trust a good Adams county man for securing a good bargain when he has a chance! Many of us still have pleasant memories of the sale last Fall, and if this is to be like that, it's "peaches and cream" to us, whatever it may be to Wanamaker & Brown. Anyhow, they have our best wishes. It

A GOOD SEASON.—The past season has been a most prosperous one for farmers all over the land. While business has been dull in the cities, and most business men have been oppressed and embarrassed, the fruit and grain crops have been abundant beyond measure, and it looks as though our country friends are to have all the money this winter. If so, we assure them that they can find no better way of spending a small part of their spare cash than putting it into a suit of fine new clothes from the great clothing establishment of Wanamaker & Brown, Philapelphia. RINGBONE IN HORSES.

As we are frequently asked the question, can a ringbone be cured, and as a great many remedies are recommended for the cure of this prevalent and troublesome disease, we will give a short description of the nature and causes of ringbone.

Ringbone consists in a bony growth, technically called *exostosis*, extending around the lower part of the limb—hence the name ringbone. The situation of this osseous disease is immediately above the hoof, involving the pastern joint, and not unfrequently to the fetlock joint. In cases of long standing the motion of the pastern joint becomes completely destroyed, and the union of the bones takes place by an abnormal growth. This is called the process of *anchylosis*. Ringbone may either affect the fore or hind limb, and generally proves a very troublesome disease, and in very many cases produces lameness. In Canada ringbone is a very common disease, and in many instances can be traced to hereditary tendencies, as certain breeds are very liable to be affected with osseous diseases generally, and ringbone in particular; and as long as ringbone horses and mares are kept for breeding purposes, this disease will continue to increase. There may be exceptional cases, where the disease is the result of injury, that a mare affected with ringbone may bear strong and sound progeny; but in nine cases out of ten, the progeny of ringboned mares are apt to be affected with ringbones, sprains, etc.; and in proof of this how often do we see colts affected with ringbones when they are young, long before they are subjected to work. We therefore unhesitatingly assert that the great cause is hereditary predisposition, or faulty conformation. No doubt there are also immediate exciting causes, as rapid driving, and rough usage of any kind.

Ringbone is easily detected. It shows itself as an enlargement extending around the pastern joint, and when forming is usually accompanied with lameness, the lameness being increased by pressure or flexion of the joint. In severe and continued cases, the whole muscles of the limb waste to a great extent, and the horse loses condition from the extreme pain.

The treatment of ringbone generally is very unsatisfactory, and it is an incurable disease in so far as removing the bony growth, though curable in some instances in so far as removing the lameness. The horse should have rest, and the joint be kept as easy as possible, and cooling or soothing applications should be used for some time, after which blisters may be used with good effect. One of the best and safest applications is the biniodide of mercury ointment applied. The actual cautery, or firing iron, in some cases is necessary, and after either firing or blistering the horses should be kept from work for a lengthened period, and it is generally necessary to blister at intervals of ten or fourteen days.—*Canada Farmer.*

COTSWOLD SHEEP.—Mr. Beale Brown writes as follows to *Bell's Messenger*: "We Cotswold ram breeders are twitted in most quarters because we do not continue to show sheep at the agricultural shows in England. I consider a man must be mad to attempt to show sheep against shearlings computed at sixty-five pounds a quarter, which I am informed they were for this year at Manchester, and measuring near six feet round; four inches more than the old rams. Now, I said once, the shepherd ought to have had the prize for sculpturing before some restriction was put upon shearing, and I am sure the poor fellows should now have the prize; for what labor they must have, and what skill in administering all the stimulating drugs the Apothecaries' Hall can supply. Is not this a burlesque upon prizes for breeding animals? And then the men who purchase them have the same disappointment a friend of mine had some years ago, who purchased some of these sheep, and when the fat was off them said they had necks like coach horses. I am sure our judges must have weighing machines instead of measuring tape, and we must limit the weight of different animals, which strikes me as the only way to check this. How many tons of fat are now put upon rams only to deceive the public and injure the animals, all of which must be physicked off again."

HOME ON THE FARM.—The farm preserves the family in its integrity. The home has in that charming word, and that still more charming thing, the fireside—around which parents and children gather, and where the bright and cheerful blaze upon the hearth is but a true type of the flame of love that glows in every heart.—The parents have been drawn together, not by the sordid motives of wealth, or by the ambitious desire of social display, but for the personal qualities seen in each other. The glory of that fireside to the husband is that the wife is there, and to wife that he is there. Here they gather at morning, and at evening, and at noon. The board is almost always surrounded with the same circle. Here they spend the long winter evenings together, enlivened with the school-books of children, the newspapers and journals, and works of history and science. A constant homogeneous influence goes forth from this circle to the young hearts that are moulding there. Paternal vigilance guards the young against wicked companions. If the comprehensive religious influence are right in that home, they will all grow up to be good citizens, to be the pillars of society, wher ever their lot may be cast. The sons follow the business of their father as soon as their labors are available.—They are with him in the field, and by the way, and at home. They form industrious habits, and are prepared for the responsibilities of life.—*The Euralist.*

MANAGEMENT OF Cows, &c.—No other kind of stock should be suffered to run in the same pasture with cows, particularly hogs, for they wallow in the water and spoil it for the use of the cows, and, moreover, the mud that adheres to them when they come out of their wallow is carried over the grass, which renders it unfit for the cows to eat. We do not think well of a very frequent change of pasture for cows, for they will soon become so uneasy as not to be satisfied with the best you can give them. Let them have range enough so that the pasture will always keep ahead of them, and they will be satisfied, and milk as well, if not better, than when their pasture is frequently changed. After harvest, when the grass is not so fresh, it will be well to change sometimes, but not frequently. Cows that are giving milk are great eaters; they also require plenty of water and plenty of shade in their enclosure, with salt about twice a week.—*Euralist.*

THE WORLD,

DODGES' OHIO AND BUCKEYE

Reapers and Mowers.

A careful examination of these machines will commence any one of their superior merits over all others, in strength, durability, ease of draft, and reliability for work, on all kinds of ground, and in every variety of grass and grain. Confident of this we invite those in want of a good machine to examine for themselves before purchasing elsewhere.

We have on hand for sale, the Buckeye Mowers—REAPERS as Hand Rake, Self-Rake, or Dropper—Two different sizes: No. 1 Machine, with two cutter Bars and three Knives, cutting five and a half feet; and No. 2 cutting four feet eight inches in grass; No. 2, cutting four feet six inches.

We have that confidence in these machines that we are willing to let those wanting a machine test them with any other they may wish, and keep the one that gives the most satisfaction. DODGES' AUTOMAN SELF-RAKE has given such general satisfaction, that we consider it the best Self-Rake out, and is attached to no other machine except the Dodge Machine, the Ohio and Buckeye pateut.

For the benefit of those wanting machines we would refer them to a few of those to whom we have sold the last season, viz:

John Deardorf, Sen.,	Henry Culp,
Ephraim Lady,	Henry King,
George Lady,	Mathias Penrose,
Jonathan Winler,	David Stewart

Also, WIRE-TOOTH HAY RAKES, including the celebrated Brandt Rake, and Self-Discharging Rake. Also, PLOUGHS, FANNING MILLS, AND FARM IMPLEMENTS GENERALLY.

Persons wishing to examine machines will find them at the warehouse of JOSEPH WEIST & SONS, Gettysburg, Pa., or at the residence of the subscriber, 2 miles from Gettysburg, on the Harrisburg road. Persons wanting Circulars will address the subscriber, Gettysburg, Pa.

STILL AHEAD!

HOFFHEINS'

REAPER & MOWER,

One of the Greatest Machines of the Age!

IS superior to any other Machine now in use, and will excel any that will ever be introduced, having been thoroughly tested and given general satisfaction. I would now inform all those who intend purchasing Machines to call and examine for themselves. This Machine is noted particularly to excel all other machines in strength, durability, ease of draft, and reliability of work in all kinds of grass and grain. It cuts long or grain admirably, which is a great desideratum in Machines to a farmer. It can be used as a hand rake as well as a self-raker. It cuts 5 feet 2 inches in grass; 4 feet 10 inches in grass; has a steel cutter bar, with strong iron guards; it can be used as a Single Mower as well as a Combined Machine.

A fair trial of the Machine can be had.

Also, SHERMAN'S SELF-DISCHARGING HORSE RAKE, and the great and well-known BRANT RAKE, the best rakes ever introduced. We would also call your attention to the IRON DOUBLE SHOVEL PLOUGH, wrought iron frame, very light and strong, steel shovels, easily adjusted to run shallow or deep, and is neatly and tastefully made.

ALSO, THE KESLER AND EXCELSIOR FANNING MILL, the old "Hamborough Fan improved, for many years a great favorite among the farmers of Pennsylvania. It is large and strong, has two coffer screens, and warranted to work perfectly.

Also all kinds of Seed GRAINS always on hand.

Any person wishing to examine these machines can see them at the Battle-field Hotel or at my residence, 3 miles from Gettysburg, between the Taneytown road and the Baltimore pike.

GEISER'S PATENT SELF-REGULATING

GRAIN SEPARATOR,

CLEANER AND BAGGER,

With the latest improved Triple-geared Horse Power, either Gear or Belt.

This machine has successfully competed with all the best of the different patented Grain Separators, and now has the reputation of being the best Separator ever put on sale, in fact, the only Separator and Cleaner ever before the public to give general satisfaction.

The machine is conveniently arranged for hauling and threshing, being permanently fixed on the wheels. One man can easily move or shift it about, so that it is not half the trouble on a farm for it as common thresher and shaker. It is also easily put in operation. It is simple, easily managed, reliable, durable, compact and cleanly to work by; while in operation, not making near the dust as the common machine or other Separators.

Farmers can rest assured that this machine is no humbug, and judging from the high recommendation of farmers that are using them we must come to the conclusion that it is the very machine that farmers want.

The following are a few of the persons who have used this machine, well known, and to whom the public are referred for further information:

Wm. J. Peters, Flora Dale, Adams co., Penna.	
Wm. Kohler, near New Oxford,	"
John D. Pfoutz, near Gettysburg	"

Daniel Peters, Bonderville,	"
John Waltman, Mechersytown	"
Michael Fissel, Mountjoy twp.,	"
John Small, Cashtown,	"

Repair Castings for the above machine will be kept by the Agent, and also by Ephraim Fissel, near Gettysburg.

Miscellaneous.

FORTY THOUSAND

CASES OF GOODS

were shipped from our house in One Year, to families, clubs, and merchants, in every part of the country, from Maine to California, amounting in value to over

ONE MILLION DOLLARS.

Our facilities for transacting this immense business are better than ever before. We have agents in all the principal cities to purchase goods from the Manufacturers, Importers, and others, for CASH, and often under the actual cost of production.

Our stock consists, in part, of the following goods:—

SHAWLS, BLANKETS, QUILTS, COTTONS, GINGHAMS, DRESS GOODS, TABLE LINEN, TOWELS, HOSIERY, GLOVES, SKIRTS, CORSETS, &c., &c.

SILVER-PLATED WARE, SPOONS, PLATED ON NICKEL SILVER, DESSERT KNIVES, FIVE-BOTTLE PLATED CASTORS, BRITANNIA WARE, GLASS WARE, TABLE and POCKET CUTLERY, in great variety.

ELEGANT FRENCH AND GERMAN FANCY GOODS, BEAUTIFUL PHOTOGRAPH ALBUMS, the newest and choicest styles in Morocco and Velvet Bindings.

MOROCCO TRAVELLING BAGS, HANDKERCHIEF AND GLOVE BOXES, &c.

GOLD AND PLATED JEWELRY, OF THE NEWEST STYLES.

We have also made arrangements with some of the leading Publishing Houses, that will enable us to sell the standard and latest works of popular authors at about one half the regular price:—such as BYRON, MOORE, BURNS, MILTON, and Illustrated Works, in full Gilt and Cloth Bindings,—and hundreds of others.

ONE DOLLAR FOR EACH ARTICLE.

We do not offer a single article of merchandise, that can be sold by regular dealers at our prices. We do not ask you to buy goods from us unless we can sell them cheaper than you can obtain them in any other way,—while the greater part of our goods are sold at about

One-Half the Regular Rates.

We want good reliable agents in every part of the Country. By employing your spare time in forming clubs and sending us orders, you can obtain the most liberal commissions, either in CASH or MERCHANDISE, and all goods sent by us will be as represented, and we guarantee satisfaction to every one dealing with our house.

Agents should collect ten cents from each customer and forward to us in advance, for Descriptive Checks of the goods we sell.

The holders of the Checks have the privilege of either purchasing the article thereon described, or of exchanging for any article mentioned on our Catalogue, numbering over 350 different articles,—not one of which can be purchased in the canal way for the same money.

The advantages of first sending for Checks are these:—We are constantly buying small lots of every variety of goods, which are not on our catalogues, and for which we issue checks; all of which, besides, in every large club we will put checks for PATENTS, QUILTS, BLANKETS, DRESS PATTERNS, or some other article of value, *giving some members of the club an article for about one quarter of its value.*

In every order amounting to over $50, accompanied by the cash, the Agent may retain $2 00, and in every order of over $100, $5.00 may be retained to

PAY THE EXPRESS CHARGES.

This offer is more especially to assist Agents in the Western and Southern States, but is open to all customers.
